I would like to contribute to your organization as a full-stack web developer, leveraging my ability to develop static, dynamic and E-commerce web applications using readily available web frameworks. With my passion for learning, I will be able to take part in empowering your team with my newly found coding skills. As a process driven person, I believe I'll be able to come up with results needed to carry out a given task or project. My dedication, focus and self sufficiency will allow me to grow and impart significant success for the benefit of myself, the company and its people.

EDUCATION

480 HOURS INTENSIVE THREE MONTHS COURSE | Tuitt Coding Bootcamp, Metro Manila, PH
BACHELOR OF SCIENCE IN COMPUTER ENGINEERING | Southern Mindanao Colleges - ZDS

ABOUT ME

I have great interest in movies, music and tv series. I've always been fascinated with how well a fantasy or sci fi themed movie can bring back the kid in you, or how a song can change your mood and reminisce great and bad moments in your past. I always try to see the good thing in every situation no matter how bad the experience was. Learning is a continuous process and I'm always ready to embrace every opportunity needed for me to grow better, wiser and greater.
